

INDICATIVE SEAL

FORT TIGHT SEAL (FTS)

Pull-Tight Seal

Small and sophisticated design for comprehensive security and authentication.

Fort Tight Seal is easy to use, compact and perfect for small-sized sealing requirements. It is designed with a slim structure to mainly suit its smaller locking latches application. This delicately designed seal is suitable for security and authentication purposes with saving space in mind.

These seals include the BioSphere bio-additive.

To provide eco-conscious solutions on a wide array of applications, all Mega Fortris' security seal product lines with plastic content will include the BioSphere bio-additive from 13th May 2024.

Applications:

- Retail Applications
- Fire Extinguishers
- Logistics
- Banking

Our biodegradable plastic additives go deeper, allowing microbes to consume the C-C bonds within plastic's structure at a macromolecular level. This increases the surface area of plastic products and enables plastophilic microbes to attach to the polymer's newfound cavities. So, unlike regular plastic that can sit in a landfill for hundreds or thousands of years, plastic enhanced with BioSphere attracts over 600 different types of microbes that effectively digest and consume it.

PREVENTION · PROTECTION · PEACE OF MIND

LASER MARKING OPTION

VIEW APPLICATION GIF

- 1 The Fort Tight Seal is moulded with Polypropylene (PP) material with one piece moulding process, and equip with geater security and clear evidence of tampering.
- 2 One-way locking mechanism is embedded for fast and easy application.
- 3 Irreversible identifiers such as name, logo, barcode, serial number and QR code are laser-marked on the flap.
- 4 Tear-off (TO) available for easy removal.
- 5 These seals include the BioSphere bio-additive.
- 6 Label tag on the side allows for additional tagging and better security.

TECHNICAL SPECIFICATIONS

PRODUCT - FORT TIGHT SEAL (FTS)

Code	Material	Locking Length	Locking Size	Tensile Strength	Marking Area	Max Marking Digits
FTS	Plastic : Polypropylene (PP)	203 mm (7.9 in)	Ø 3.5 mm (0.1 in)	15-17 kgf (33.1- 37.5 lbf)	11 x 22 mm (0.4 x 0.9 in)	Serial no : 8 Barcode : 8

PACKAGING
