STORAGE SECURITY

GOLD BULLION BOX (GB BOX)

Tamper-Evident Storage

Reinforced and user-friendly structure for security storage applications.

Gold Bullion Box is manufactured with high-impact plastic material and reinforced metal handles for rigid and durable properties. It has a tamper-resistant slide-on security lid with one sealing latch. Cable and plastic indicative seals are perfect to secure the Gold Bullion Box. The box is feasible and versatile for all kinds of asset.

This box includes the BioSphere bio-additive.

To provide eco-conscious solutions on a wide array of applications, all Mega Fortris' security seal product lines with plastic content will include the BioSphere bio-additive from 13th May 2024.

Applications:

- Defense & Law Enforcement
- High-value Retail
- Chemical & Pharmaceutical
- Casino & Gaming

Our biodegradable plastic additives go deeper, allowing microbes to consume the C-C bonds within plastic's structure at a macromolecular level. This increases the surface area of plastic products and enables plastophilic microbes to attach to the polymer's newfound cavities. So, unlike regular plastic that can sit in a landfill for hundreds or thousands of years, plastic enhanced with BioSphere attracts over 600 different types of microbes that effectively digest and consume it.

PREVENTION · PROTECTION · PEACE OF MIND

VIEW APPLICATION VIDEO

- 1 Gold Bullion Box is moulded with high-impact plastic materials to show clear tampering signs and withstand rough handling for multiple usage.
- 2 The slide-on lid is easy to apply and can be further secured either with cable or plastic indicative seals.
- 3 The lid is designed with a space-saving nesting feature.
- 4 The reinforced metal handles are embedded into the high-impact plastic and are foldable when nesting.
- 5 Irreversible identifiers such as name, logo, barcode, serial number and QR code can be laser marked on the lid and the side.
- 6 This box includes the BioSphere bio-additive.
