

STORAGE SECURITY

MEGA SECURE BOX (MCAB)

Tamper-Evident Storage

Solid material for durability and operation efficiency.

The Mega Secure Box is constructed from durable high-impact plastic, ensuring efficient operation and long-lasting performance. It features a tamper-resistant slide-on security lid with a sealing latch to securely protect assets with security seals. Versatile and practical for all types of assets, this box also includes the BioSphere bio-additive for improved eco-friendliness.

To provide eco-conscious solutions on a wide array of applications, all Mega Fortris' security seal product lines with plastic content will include the BioSphere bio-additive from 13th May 2024.

Applications:

- Gaming
- Evidence Securing
- Retail Applications
- Banking

Our biodegradable plastic additives go deeper, allowing microbes to consume the C-C bonds within plastic's structure at a macromolecular level. This increases the surface area of plastic products and enables plastophilic microbes to attach to the polymer's newfound cavities. So, unlike regular plastic that can sit in a landfill for hundreds or thousands of years, plastic enhanced with BioSphere attracts over 600 different types of microbes that effectively digest and consume it.

- 1 Mega Secure Box is moulded with high-impact plastic materials to show clear signs of tampering and is able to withstand rough handling for multiple uses.
- 2 The slide-on lid is easy to apply and can be further secured with plastic indicative seals.
- 3 The lid is designed with a space-saving nesting feature.
- 4 Irreversible identifiers such as name, logo, barcode, serial number and QR code can be laser marked on the recommended pairing seal, such as Triple Lock Chamber Seal 2K (TLCS 2K) and Mega Tebco Chamber Seal (MTCS).
- 5 The box is available in two sizes to fit either two or eight decks of cards.
- 6 This box includes the BioSphere bio-additive.
- 7 For fully transparent Mega Secure Box, the BioSphere bio-additive may be omitted upon request.
