# MEGA SECURE BOX (MCAB)

### Tamper-Evident Storage

***High visibility and solid material for durability and operation efficiency.***

Mega Secure Box is manufactured with high-impact plastic material for transparency and endurance during operation. It has a tamper-resistant slide-on security lid with one sealing latch to further secure the assets with security seals. The box is feasible and versatile for all kinds of asset. This box includes the BioSphere bio-additive. To provide eco-conscious solutions on a wide array of applications, all Mega Fortris' security seal product lines with plastic content will include the BioSphere bio-additive from 13th May 2024.

#### Applications:

- Casino & Gaming
- Evidence Securing
- Retail Applications
- Banking

Our biodegradable plastic additives go deeper, allowing microbes to consume the C-C bonds within plastic's structure at a macromolecular level. This increases the surface area of plastic products and enables plastophilic microbes to attach to the polymer's newfound cavities. So, unlike regular plastic that can sit in a landfill for hundreds or thousands of years, plastic enhanced with BioSphere attracts over 600 different types of microbes that effectively digest and consume it.
